

Go Outside

5 Pin Soccer

What you need:

5 large soda bottle 1/3 filled with gravel
1 soccer ball per kid

How To Play

A really fun, all-involved game that builds soccer skills.

Place teams at opposite ends of the field.

Place the plastic soda bottles in the center of the field.

At the start signal, players kick the balls from behind their line trying to knock down a pin. The player who knocks down a pin must run out and set the pin back up. Score 1 point for each pin knocked down. First to five wins.
