

Go Outside

Trash Target

What you need:

2 trash can lids
20 water balloons

How To Play

Set up teams and face off. The first player on each team will hold a trash can lid, a player from the opposing team will try to hit him with three water bombs. If the player is hit on the body, the other team receives a point. If he deflects the throw with a trash can lid, his team receives a point. Next they switch and the other team has a turn. They continue until each player has a turn to throw and to deflect. Mark off a square that the player should stand in and cannot step out of. If he steps out, his team loses a point. The team with the most points wins.
