

# Go Outside

## Wave Game

### **What you need:**

Outdoor area

### **How To Play**

This game is a variation of hide and seek. Choose an area outside with good places to hide. One person is designated as "IT" and must count to 60 while everyone else goes and hides. "IT" finishes counting and goes to look for hiders. When he finds someone he uses their name and says "1, 2, 3 on David!" The player found now has to go to the designated "jail." This could be a tree, a hula hoop or even a large rock. While "IT" is looking for others, the person in jail is watching to see if someone hiding peeks out and waves at them. If this happens, they can sneak away from jail and go hide again. They must be careful though because they can be sent back to jail if they are spotted trying to leave jail! If everyone is caught, choose someone new to be "IT" and start all over again.
